

State Banks and Confidence

The little town of Montecello, Iowa, the home of our Mrs. G. E. Porter, has a population of about 2,500 people. Its two STATE BANKS have a combined deposit of over TWO AND ONE-HALF MILLION DOLLARS. This shows at least two things:

First, farmers have money.

Second, farmers have confidence in state banks.

The Berea Bank and Trust Company solicits your business. The banking laws of Kentucky are second to none.

METHODIST NOTES

Next Sunday, August 30th, being the last Sunday of the conference year, the pastor will administer the Sacrament of the Lord's Supper at the M. E. Church, Sunday morning. All the members are urged to be present.

The Sunday-school Board met at the home of Rev. D. W. Brown, on Wednesday evening to nominate officers for the new year. The work of the Sunday-school for the past year has proven very satisfactory.

A "Year-End Reception" will be held at the M. E. Church Tuesday evening, August 31st, when all the members and friends of the congregation will meet, and the pastor will present a brief report of this year's work, and outline a program for next year's labors; also addresses will be given by the different officers and members. A real good time is promised, and you are urged to be present.

The loyal women of the "Ladies Aid" of the M. E. Church are this week completing the payment of their pledge of \$500 on the Church debt. One feature of the Tuesday evening reception will be the burning of the old pledge, and the framing of the certificate of payment, which will be hung on the Church wall for a memorial to the faithful few who have accomplished this work.

Rev. Brown will leave Wednesday morning for Covington, Ky., to attend the Annual Conference of the M. E. Church. Berea Church will be represented by a number of its members, among them being Wright Kelley, J. S. Gott, E. F. Coyle, and W. O. Hayes, who will attend the Laymen's Conference.

DISGRACEFUL ASSAULT

Berea suffered an unusual disgrace last week. A young man, who has learned to use his fists in the army, and who had adopted the prize fighter's codes of honor and touchiness, thought he was insulted by the man who superintended his labor. Instead of seeking an explanation or conferring with his dean or the President, the misguided young man took the matter into his own hands, and at a time when there were no bystanders, and assaulted his teacher.

The disgrace is not only upon the misguided boy, but upon Berea and all who teach righteousness here that he had not been taught better before this unfortunate thing occurred.

AS OTHERS SEE US

From the New York Sun

The casualty lists, so far as tabulated to date, of the Statewide Kentucky primary in which the Hon. Augustus Owsley Stanley received the Democratic nomination for Governor indicate a spirited, old-fashioned political contest.

The prominent citizens of Breathitt County were, as usual, alert and active. The Hon. Martin Clemmons, of Breathitt, was shot and killed by the Hon. Grover Blanton, conspicuous in the political circles of the same County, while in a subsequent discussion with the Hon. Elihu Allen Mr. Blanton was himself seriously wounded. At Hickman the Hon. Bert Wallace was killed and the Hon. Walter Allison was dangerously wounded in a brisk street interchange of opinions in which revolvers at close range served as the vehicles of thought. Two men and one woman, unfortunately present on the rostrum, were likewise shot down, but are not beyond hopes of recovery. At Richmond the Hon. William Monahan in the course of a debate at the polls stabbed the Hon. George Phelps, Jr., who it is believed will die of his injuries.

The returns are still incomplete and the omissions include some of the remoter regions where party spirit is always wide awake and the prominent citizens have long been quoted as pretty spry with their lethal cutlery and explosive hardware. But the preliminary casualty bulletins so far as published are sufficient to indicate a strong hearty canvass with no trace of mollycoddle languor in rising to the American citizen's grave political responsibilities.

As the Kentucky campaign itself is a pivot on the issue of Rum vs. Statewide Prohibition, a topic on which both sides are notoriously "set" in their opinions, the Kentucky political firing line this fall will probably leave something to be desired as a health resort.

Report Accident to Steamer. Paris, August 24.—A mishap to a channel steamer on a voyage from Folkestone to Boulogne is persistently rumored in Paris. A report which reached railway officials was that the vessel met with an accident and returned to Folkestone where the passengers were transferred to another boat.

According to the census of 1890 over two and a half millions, about one-sixth of the entire population of Brazil, were returned as of illegitimate birth.

It is said that there are more than 2,000,000 nonchristian outcasts in the Punjab alone.

The British and Foreign Bible Society reports that the astonishing demand for the Scriptures in Korea continues and grows. During the first six months of this year the agents of the society sold 333,000 books—24,000 more than during the whole of 1913. The provision of cheap, popular editions of each of the four gospels and of the Acts, printed in the native script and sold at the price of a farthing apiece, is said to have had much to do with this large increase.

Sunday school teachers' institutes have been held in the Wonsan, Pyong-Yang, and Kwanju districts of Korea. So great has been the interest in these district institutes that the workers are planning several larger institutes for the coming summer in larger centers of population.

In his annual report in the American Presbyterian Congo mission, Rev. C. L. Crane says that 1,887 persons have been baptized, an increase of 559 over the number for last year. This number, continues the report, represents the largest number ever baptized in our field in any one year.

The leading language in our western world is, of course, the English, which, according to an exchange, is spoken by approximately 150,000,000 people. Next comes in the German language, which is spoken by 100,000,000 people; the Russian, by 70,000,000; the French, by 45,000,000; the Spanish, by 40,000,000; and the Italian, by 30,000,000. Some of the Asiatic languages, if many dialects in each be included, are spoken by far greater numbers.—So. Miss. News B.

The Circuit Court room and the colored to meet at the colored school building. The white institute will be conducted by Professor J. C. Booth, of Richmond State Normal School, who is well known in this line. Thursday afternoon will be patrons day and an interesting program has been prepared. There will be speaking on illiteracy and on woman suffrage. Mrs. Desha Breckinridge, of Lexington, will be invited to address the institute on the latter subject.

Farmers Chautauqua

The Farmers Chautauqua being conducted in this County under the auspices of the State Agricultural Department and Berea College is meeting with success and a great deal of interest is being manifested by the citizens.

The Chautauqua was held last week at Iron Mound and this week at Fitchburg. It will be held next week at Station Camp and will close in the County at Irvine beginning Tuesday, August 31st. The meetings will be held in a large tent which will be erected on the vacant lot, corner Main and Court streets.

The course consists of lectures and demonstration work on agriculture, horticulture, good roads, education, cooking and canning. Such notable lecturers as President Frost, of Berea College, Fred Mutchler, of U. S. Department of Agriculture, representatives of State University and Richmond Normal School will be on the program during the week here.

Professor F. O. Clark, an expert on fruit culture, and a lady representative from Berea College, who will demonstrate in cooking, and canning, will also be here.

The course is intended to educate and instruct the people in improving conditions on the farm, in the home and community. The expense for this great work is paid by the U. S. Department of Agriculture and the State Department of Agriculture, and all are invited to attend free.

Professor F. O. Clark, dean of the Vocational Schools, Berea College, who is with the Farmers Chautauqua, holding in the County, married Miss Jane Witt, daughter of Mr. and Mrs. H. C. Witt, of Witt Springs.—Estill Tribune.

Allen Indicted for Killing of Blanton

Elihu Allen, who shot and killed Grover Blanton on the 7th inst., was on Monday indicted by the grand jury, and, being arraigned, the trial was set for Thursday, when the prisoner was brought into court. His attorneys moved for a change of venue and a number of witnesses were brought in, asked as to the chances for a fair and impartial trial and one that would not be influenced by the strong personality of the deceased man's father. The court, after hearing the witnesses, declined to remove the case to another county for trial, and the selecting of a jury began and as we go to press the jury has not been completed. Much interest is being manifested in the trial.—Jackson Times.
